

REMARKS/ARGUMENTS

The above listed claim amendments along with the following remarks are fully responsive to the Office Action issued on May 1. In response to the Examiner's request, replacement figures for FIGS. 1-5, and 8-15 are included herewith. The enclosed figures do not include any new matter.

Claims 1-6 and 10-19 are pending and are believed to be in a condition for allowance. An allowance is therefore respectfully requested.

Claim Rejections – 35 U.S.C. § 112

Claims 1-6 and 10-19 were rejected under 35 U.S.C. § 112, first paragraph, as failing to comply with the enablement requirement. The claims, however, clearly recite subject matter disclosed in the specification such that one skilled in the art may make or use the invention.

While the Applicants elected Species II in response to the February 9, 2006 Restriction Requirement, which was stated to be specific to FIGS. 20-22C, several of the other figures are generic to Species I and II. In addition to FIGS. 20-22C, at least FIGS. 1, 1A, and 3-18 are generic to both Species. The structure shown in these additional figures, and described in the specification, is not particular to either of the disclosed drive mechanisms.

CONCLUSION

All pending claims are now in condition for allowance. A notice to that effect is respectfully requested.

The Applicant herewith petitions the Commissioner to extend the time for reply to the Office Action dated May 1, 2006 for one (1) month. A credit card payment form in the amount of \$120.00 for a one-month extension of time is submitted herewith. No additional fee is believed to be necessary for the entry of this paper. Should any additional fee be required for entry of this paper, the Commissioner is authorized to charge the Faegre & Benson Deposit Account No. 06-0029 and in such event, is requested to notify us of the same.

Respectfully Submitted,

FAEGRE & BENSON LLP
